These interpretations have been written for use with the Solar Fire astrology software program. They have been written to apply to a geocentric tropical natal chart using a quadrant based house system. They can be used as an educational tool for astrologers, and can be edited for client use.

When using these interpretations, please bear in mind that, inevitably, every chart will contain some contradictory influences, and as a result certain interpretations of different items in the same chart may seem difficult to reconcile. However, this may still be an accurate reflection of the individual whose chart is being interpreted, as people do experience conflicting desires, events and circumstances in their lives. It is the responsibility of the astrologer to synthesise these apparent contradictions in order to present a cohesive and realistic interpretation of the dilemmas of the chart.

Your emotions are likely to affect your choice of career. Therefore you need to make sure that you strike out on your own journey rather than trying to please one or both of your parents. You also need to ensure that you like and respect anyone who holds authority in your chosen profession. Otherwise you may feel uncomfortable at work. Perhaps you enjoy looking after your workmates, listening to their troubles and bringing them little treats, or maybe your career is in a helping profession, or the hospitality industry. Your Sun is in the zodiac sign of Aquarius indicating that you're unconventional, friendly, unpredictable and innovative. Anything new and original will appeal, particularly if it goes against convention. You like to test ideas that have never been thought of before. At best this can be a exciting quest into unexplored territories. It can, however, be an indiscriminate rebellion against tradition. Not that you will mind, for you're a strong believer in people having the freedom of individual expression and not being oppressed by society's expectations. A regular livewire, you've an electric quality about your personality, which makes it difficult for you to sit still for long and also makes you attractive to people from all walks of life. In fact you prefer to mingle with groups of people, often adopting the adage 'the more the merrier'. You may also enjoy working in a group which fights a particular cause.

THE SUN IN THE 9TH HOUSE

Your Sun is in the 9th House of your birth chart meaning that you're likely to succeed through your involvements in the church, universities, publishing houses, law, or travel - or a combination of all of these areas. You're also likely to have a desire to explore philosophy or science, because you want to develop intellectually. You're searching for truths which can stand the test of time, either philosophical or scientific truths or both. Once you've satisfied yourself that you've discovered some truths, then you're likely to want to give others the benefit of your knowledge. Therefore you can be both the student and the teacher during your lifetime. You're likely to benefit and succeed through your connections with foreign people or organisations and travelling abroad.

THE ASCENDANT

THE ASCENDANT IN TAURUS

The sign of Taurus is considered "feminine" by Ancient astrologers suggesting that you're more likely to wait until you feel comfortable before pursuing your purpose. You're also likely to depend on other people to take the initiative. Taurus is also a Fixed sign denoting fixity of purpose, resolution, self-reliance and independence. Structure, stability and reliability are the cornerstones of your life. Your primary motivation is for security, in particular material security, and you aim to achieve this security through practical feats. It's likely to be a slow process towards successfully achieving your purpose, because you'll not be hurried. In fact you need to be wary of becoming too fixed in your comfort zone. The positive side of this tendency is that when you do commit to a course of action, then you can be relied on to come up with the goods.

THE BLACK MOON

THE BLACK MOON IN TAURUS

The Black Moon is in the earthbound sign of Taurus indicating that you may resist positive changes in your life through a stubborn refusal to move out of your comfort zone. Of course you may blame those closest to you, believing that they have not provided a viable way forward. However, it is actually your resistance that is proving the problem. In some cases there is never going to be enough money, satisfactory security or practical plans. You just have to take a risk. Once you have faced the fact that you are the one providing the obstacles then you may be able to take some practical steps towards achieving your goals, and helping support your loved ones. The positive Planet Venus rules the Sign of Taurus and therefore you are likely to be provided for sufficiently if you accept your limitations and don't impose them on others.

THE BLACK MOON IN THE 12TH HOUSE

Whether you realise it or not you have a dark side of your nature, in that you delve too deeply into certain matters in your life. You believe that other people are the problem and perhaps they are. However, you need to focus on lighter matters. You are apt to get lost in the imaginary world rather focus on mundane matters. You can put this ability to concentrate for long periods to good use later in life, but first you have to learn some self-disciplined.

SELENA

SELENA IN LEO

You are a catalyst in people's lives, helping them in some way find their own creative path. Sometimes your own, and other's attitudes, are a little tainted by ego. It is difficult to let go of your earthly need for gratitude. Nevertheless you have a warm heart and it is your destiny to help others' heavy hearts. Your love of the fun, the arts and children is also part of your life's journey. Women with this placement have a strong mothering instinct.

SELENA IN THE 3RD HOUSE

Any goddess has joy and authority in this house of your birth chart. Therefore you can be a force to be reckoned with whenever you communicate your thoughts and feelings. The power of the spoken and written word are pivotal in your life. Your words have potency. Therefore you need to be conscious of the way in which you communicate. You can motivate, encourage and uplift through communication. You need to protect yourself, and others, from harsh words, critical thoughts and rash emotions. You may also have a love of myths and fairytales, especially "Sleeping Beauty".

SEDNA

SEDNA IN TAURUS

Sedna has joined the planetary panoply as the slowest moving planet-like object in our Solar System. It takes 10,500 years to work its way around the Sun. Most people currently alive today will have Sedna in either Aries or Taurus. To give you an idea Sedna entered Aries in 1867 and will then enter Gemini in 2024. Therefore any interpretation of Sedna in the signs is likely to be nonsensical.

SEDNA IN THE 12TH HOUSE

You are the ideal person to be around in a crisis. You are deeply caring and able to respond appropriately to situations that may overwhelm other people. You are sincere, understanding and well aware that everyone has a story of hardship, and hopefully triumph, to tell. You know what it is like to journey to the edge and be forced to rely on hidden resources. The problem is who is around when you are in trouble? If you are the strong and resourceful one, when do you get to sink? This is where you need to be very careful that you are not becoming a victim of abuse, or a martyr to other people's incessant need for help. It is important with this placement of Sedna that you learn to take time to recharge your batteries without sinking into reclusivity. For instance a holiday by the ocean, a spiritual retreat or a long walk in nature can be restorative. But spending endless days isolated can be too much. You need to learn to judge your own needs, when to help others and when to switch off. This way both you, and other people, really benefit from the hidden depths of your personality - the love, joy and appreciation of the universe.

ERIS

ERIS IN ARIES

Eris is the new dwarf planet adding yet another outer planetary entity to our pantheon. Eris takes nearly 560 years to complete one orbit around the Sun. Most people currently alive today will have Eris in either Pisces or Aries. To give you an idea Eris entered Aries in 1923 and will then enter Taurus in 2048. Therefore any interpretation of Eris in the signs is likely to be nonsensical.

ERIS IN THE 11TH HOUSE

You attract the lost souls of the world. You don't mean to but somehow your friends all seem to have a sad story to tell. You probably don't realize just how susceptible you are to stepping into the troubled waters of your friend's lives. This can be a wonderful quality, however; you also need to make sure that you can enjoy good times with your associates, rather than just the difficult ones. You also need to be wary when it comes to groups, clubs and organizations. In some ways you are better off leading a maverick life when it comes to these types of collaborations. You are too competitive and direct to be very useful in a committee-style setting. If you do join a group then you would be better advised to run for Chairman, Director or President rather than one of the committee. If you are required to work in a team then you need to be allocated specific tasks to achieve rather than joint projects. You are likely to be a fine leader, soothing over trouble waters and sorting out any conflicts that arise. However, you are less likely to succeed as one of the team members. You may join a group that fights on behalf on other people, or that is involved in helping the world to become a better place.
