### **INTRODUCTION**

This report explores the potential energies available for you in any particular location in the world. The report has evolved from a technique called astro-mapping, which overlays your chart on a map of the world using various methods. This overlay means that certain planets will be stronger in particular geographical areas. Through interpreting these planetary energies we can have an astrological map that tells us the best place to apply for promotions, to go on holidays, to meet lovers, and to live more fulfilled lives in the areas that are important to us.

The different lines listed in this report include Planet/Angle , Planet Direction and Paran lines.

Planet/Angle Lines describe where on the Earth individual planets or stars are culminating or anticulminating (or on the Midheaven and Imum Coeli) or are rising or setting (or on the Ascendant or Descendant). The Culminate/Anticulminate and MC/IC lines are always lines of longitude, whereas the rising/setting and Asc/Dsc lines are great circles around the globe and appear to curve on a map viewed in Cartesian or Mercator projection.

Planet Direction or Local Space Lines indicate the direction in which planets or stars are found when looking from the chart's location. These lines are great circles around the globe, starting from the chart's location. The common convention is to continue the line right around the world, back to the starting location. When viewed in Cartesian or Mercator projection, these lines generally appear to curve.

Paran Lines are lines of latitude, indicating where any two astronomical bodies (eg. planets or stars) are in an angular relationship that coincides with the angular relationship between the meridian and horizon at that latitude. For example, if the angle between the Sun and Saturn is the same as that between the meridian and the horizon, for particular latitude, then there is a paran line for the Sun Culminating/Saturn Rising along that latitude.

Let the explorations begin.

## **PLANETS ON ANGLES**

Maximum Orb Used: 10°00'

### **The Moon - Rise Line (Orb 1°36': Strong Influence)**

Happiness is achievable when traversing this line. You have the chance to enjoy yourself in new and wondrous ways because moving along this line can bring a heightened sense of authenticity and understanding. On the positive side this encourages the caring, intuitive, and loving side of you to come more out into the open. This in turn attracts other people. You are sensitive to your environment in this location. Therefore you enjoy the sights, sounds and smells of nature. You may also enjoy outings with close friends and family members. The rewards in your personal life can be great. However, on the other hand your heightened sensitivity can prompt you to become too preoccupied with yourself. Over-sensitivity and introspection can weaken your resolve to assert your self and your own needs, or to consider other people's needs. Therefore if you are seeking inner reflection and emotional exploration in order to help you become more authentic and reach out to loved ones then this is the line for you. However, if you are likely to suffer from emotional sensitivity and acute awareness of other's needs to the detriment of yourself then you may be wiser to avoid this line.

### **The Sun - Anticulminate Line (Orb 2°29': Strong Influence)**

Your home life and family relationships will flourish in this environment. Therefore this is the ideal place to put down roots, to begin a family or perhaps to retire. If you ready to make a commitment to focus more on your family or your house then this is the location. You may find yourself drawn to purchasing or renovating a house in the vicinity of this line. This is your chance to live in a home that truly reflects your personal taste. If you do not plan to renovate then you would be well advised to choose a home that suits your need because you are likely to be spending more time around the house, perhaps even entertaining more at home than you have in the past. You may also enjoy opportunities to reflect on your own private wishes and ambitions. For instance opportunities arise for you to finally pursue a dreamed about hobby or past time. Extra hours at home can be used to good advantage. You would do well to avoid this line if you want to further your career or to promote yourself in the public eye. You could attend a conference, but may not succeed in teaching or lecturing at a public event. You may enjoy working from home, but on the whole this line is more conducive to private rather than public past-times.

### **Pluto Lower / Midheaven Setting (Orb 0°03')**

Traversing the line changes the course of your life, and possibly those closest to you. The face that you present to the public, whether through your marital status or career, is irrevocably changed. This is a powerful location. In fact, here you will learn all about power - its use and abuse by yourself or by others. Therefore you could expect to be involved in battles with authority figures, or to be battling to place yourself in a position of power. You may not be aware of the impact that you have on other people along this line, or perhaps you are well aware of the power that you wield. Either way your life is changed irrevocably setting you in a new direction. Ideally you would like this direction to be one of success and abundance rather than a feeling of defeat. The challenge, therefore, along this line is to transform your life direction and/ or profession in a positive manner with integrity. Any gains in status that are made along this line will be subject to major upheaval if not carried out with the utmost integrity. It is vital that you employ the most positive of your leadership skills respecting both your own and other people's points of view. As a result you are able to transform your life, freeing yourself and others to enjoy success and abundance.

### **Venus Rising / Pluto Lower (Orb 0°33')**

Intensity and drama in your personal relationships are emphasised by this planetary combination. You may be consumed with love and passion and expect your partner to feel the same way. If this is the case you are vulnerable to disappointment when others fail to soar to great emotional heights and plummet the emotional depths by your side. Feelings of jealousy, lust, possessiveness and revenge can also be associated with this combination. On a more positive note you may be passionate, fiercely loyal and committed to your partner.

### **Venus Upper / Pluto Rising (Orb 1°00')**

### **Neptune Upper / Ascendant Rising (Orb 1°43')**

You are not all that you appear to be when you move along this line. This can be advantageous if you want a camouflage, but it could also mean that you are confused about your own individuality, or that others are not perceiving you in a true light. Either way you may find it difficult to express yourself in a powerful and straightforward manner. Therefore you fare better when traversing this line to pursue spiritual rather than material aspirations. For instance you may want to pursue your artistic talents or spiritual goals or perhaps you want to relax and commune with nature. It is possible for you to enjoy exploring the more spiritual, psychic or creative aspects of your personality. These are ideal pursuits for this location. On the other hand serious business trips and career promotions are likely to suffer under the influence of this line because you are not able to be clear about the finer details. Perhaps you could consider employing someone trustworthy to take care of these finer details or you could simply avoid this vicinity. It is also important that you do not allow yourself to be seduced into an escapist world of drugs or anything underhanded. If you are going to escape then let it be in a positive manner such as a spiritual retreat or a holiday cabin in the midst of nature. The planet Neptune can work positively providing inspiration and relaxation if you remain calm and honest in all of your dealings with others.

### **The Moon Rising / Ascendant Upper (Orb 1°49')**
